LAND FOR SALE.

THAT well known Tract called WEST POINT, situate in the lower end of King William County, and bounded by York, Mattaponi and Pamunkey Rivers, containing nearly 3000 acres.

To be minute in delineating the many and great natural advantages attached to this land, would be superfluous, as strangers would view it before they purchase; & those who are acquainted with it, want no further information. It may not however be improper to say, that as to fertility of soil, benefit of navigation, and the advantage of fish, oysters and wild fowl, it is not exceeded by any tract of land in Virginia. This land will be disposed of by Public Sale, at West Point, on Wednesday, the first day of December next, in lots, of from three to four hundred acres, on the following terms, to wit: One third of the purchase money paid down, one third in eighteen months, and the balance in one year after the expiration of the said eighteen months; and the payments to be secured by bond and a deed of trust on the land, with interest from the day of sale.

A clear and indefeasible title will be made to the purchasers by the subscribers, who have authorized Mr. Patrick Henderson to attend the sale and make conveyances.

EXTRACTS from Glasgow papers to the 2d October, received by the ship Liverpool Packet, in 36 days from Greenock.

LONDON, September 16.

The following curious conversation is said to have taken place between the chief consul and M. de Bourmont, a royalist general, a few months before he was, contrary to the faith of treaties, taken into custody, and immured in the temple of Befancon—where, it is said, he lately died.

General Clarke and Duroc were present during the dialogue.

BONAPARTE—"I am not satisfied with your conduct; you have lately been travelling in the Vendee, rather as a general. Still in a state of rebellion, than a vanquished citizen; you paid away, during your excursion, a good deal of English money, how came you by it? what have you to say for yourself?"

M. DE BOURMONT—"I treated with government; I am sheltered under the faith of all treaties; and it would ill become me to assume the suppliant attitude of a conquered man—it is true that, on a very late occasion, I distributed money, which I had received from the British government; but it was for the purpose of paying off debts, which I had contracted during the war, and for the payment of which I pledged my word. Your generals had promised me that you would acquit the sacred debt; but as such did not prove the case, I felt myself called upon to adhere to the spirit and letter of my engagements, and to accept the means of doing so from the government which had authorized me to contract them."

THE CONSUL—"Sir, such conduct gives uneasiness to government. What do you mean by a treaty? Be it known that, when a Rebel is strong enough to enter into a treaty with his government, such convention leaves no other vestiges behind it, except those which policy suffers to remain; and you, sir, were nothing but a subject on the day you laid down your arms. From the present moment, however, our intercourse ceases, and I order you not to communicate any more with government, in your late capacity of Royalist chief! Throughout the whole of the important transaction I never attended to individuals; I wished to satisfy the body of the people in the Vendee, and I believe I have succeeded, I know, through your means, I am surrounded by emigrants, officers of your army, and that you still consider yourself as a subject of the Bourbons. All that I have further to add on that head is, that on the day the first attempt shall be made against the existing government of France you shall be taken into custody, because the generals are decidedly against the Bourbons, because they shall never be refuted by me, and because, again, the man who called himself their subject is a rebel."

September 29.

According to report there is a plan in agitation to change the departmental form of division of the French republic, and to divide it into thirteen grand governments, each government to include two military divisions. Belgium is to form one of them which is to be placed under Joseph Bonaparte. The persons to whom these governments are to be entrusted are to take the titles of lieutenant-governors; the prefects are to correspond with them, and they are to correspond with the consuls.

Mr. Liston, his majesty's minister to the Batavian republic has hired the French hotel, in the Kleine Voorhout, which before the war was the residence of the French minister.

Citizen Lauriston, aid-de-camp to the first consul, has arrived at the Hague. He was presented to the states on the 21st instant.

GLASGOW, October 2.

Since our last, Paris papers till the 27th inst. have been received.

H. Hugel, the Imperial plenipotentiary at Ratibon, has, in the name of the emperor of Germany, formally refused to ratify the conclusion of the deputation of the 8th ult. Count de Goertz, the minister of Brandenburg, has protested against the proceeding of the Imperial minister, and demanded that the deputation with the ministers of France and Russia, should definitely settle the indemnities, without the co-operation of the emperor of Germany. The sub-delegate of Bavaria voted to the same effect.

From a New York paper.

POSTSCRIPT.

Just as this paper was prepared for press a respectable merchant of this city, favored the editors with the Glasgow Courier, of the 5th October, which was received by the Liverpool Packet. We have been as copious in our extracts as our time would permit, of the interesting and important news it contains.

This paper states that the complexion of affairs in Switzerland has taken a very unexpected turn. The insurgents are every where successful. They have got possession of Bern & forced the Helvetic government to capitulate. The insurgents behave with the greatest good conduct. From the general sentiments throughout Switzerland in favor of the insurrection, it is obvious that there is no force at present there fit to oppose them.

Private letters from Paris mention, that at Rennes, an important jacobin conspiracy has been discovered by Mounier, the lately appointed prefect of that place. The garrison of Rennes, of about 6000 men, with their commander general S—, are charged as having strongly imbibed the same dispositions, as well as the civil authorities. The prefect, after much difficulty, suppressed the conspiracy, the general was arrested and conducted to the temple; and the garrison dispersed, and part of it sent to the colonies. The Paris papers are wholly silent on the subject.

The plan of indemnities continues on the continent, to be the principal object of attention. The emperor of Germany perseveres in his determined opposition to the proposed scheme of Russia and France. We fear that, though the principles upon which he acts be consistent with common sense, he must yield to the influence of the mediating powers. The French government has published a violent philippic against the emperor, for his attempts to erase Bavaria from the list of states. The first consul takes great credit to himself for his generosity, in forgetting the conduct of Bavaria towards France, and for his justice in settling the indemnities upon an equitable basis. The manifesto breathes the language of one who knows that he cannot be disobeyed.

The same paper mentions, that by a late decision of the courts in Jamaica, the consignees of produce in Great Britain, in case of non-insurance, are considered as responsible for every loss which may happen in consequence of fire.

Price of Stocks at London, Oct. 1, at noon 3 per cent. consols 60½ 70—omnium, 7½ dis.

BERN, September 17.

The following are the most recent details which may afford a precise idea of our situation. This morning the courier brought an account that the troops with red and black cockades, infested the roads. At Kilchberg he was informed that their headquarters were at Soleure. Friburg has adopted the forms of the ancient regime. The number of insurgents actually in arms is upwards of 10,000. It must be acknowledged that they persevere the strictest discipline, pay for every thing with exactness and what appears inconceivable in the midst of this effervescence, not a patriot is ill treated by them.

General Andermatt has bombarded Zurich, which confined itself to a simple defence. A deputation was sent to him which received only evasive answers, and the bombardment commenced as soon as it returned. At length the government commissary brought him an order to cease hostilities. He is now stationed on the Albis with 700 men, and old general Steener with 1500 off the heights of Horgg; Reding is on the frontiers with 2000.

A Baron d'Erach is said to be the mover of the insurrection which broke out on the 12th. It is said that his party have taken Aarau and Brugg.

It appears that the chiefs of the small cantons have remained tranquil hitherto, and have faithfully abided by the truce; but they have, it is said, threatened to consider it as null, if Zurich continued to be molested. News from the frontiers of France announce that 1,500 French troops are on their march to Switzerland.

September 18.

Our troubles assume a more serious appearance. The government is daily losing some of its partizans. The means of force employed against Zurich have excited much irritation in several cantons which had hitherto joined no party. The deputies of the petty cantons gave notice of the rupture of the armistice the moment they heard of the bombardment of Zurich. The strong castle of Arburg has surrendered to the insurgents of Argovia.

From the SPORTING MAGAZINE.

Distinguishing signs of madness in Dogs.

By Mr. MEYNELL.

Mr. Meynell, a celebrated fox-hunter in Leicestershire, having paid particular attention to madness among his dogs, communicated to a physician the following remarks, in answer to some questions proposed to him on that subject. In order (says Dr. Fothergill, the writer of this article) to prevent any mistake in a matter of such importance, I shall here present the reader with the result of his observations, copied verbatim, in his own words.

"The first symptoms of canine madness in dogs is, I believe, a failure of appetite, in a small degree. I mean that the dog does not eat his usual food with his usual eagerness; though, if better food be offered him, he may eat it greedily. A disposition to quarrel with other dogs comes on early in the disease. A total loss of appetite generally succeeds; though I have seen dogs eat and lap water the day before their death, which generally happens between seven and ten days after the first symptom has appeared. A mad dog will not, I believe, cry out on being struck, nor show any sign of fear on being threatened; though he will, very late in the disease, appear sensible of kind treatment.

"I have never known a mad dog show symptoms of the disease in less time, after the bite, than ten days; and I have known many instances of dogs having died mad, as late as eight months after the bite. I think the symptoms generally appear between three & eight weeks after the bite.

"A mad dog, in the height of the disorder, has a disposition to bite all other dogs, animals or men. When not provoked, he usually attacks only such as comes in his way; but, having no fear, it is peculiarly dangerous to strike at, or provoke him.

"Mad dogs appear to be capable of communicating the infection early in the disorder, & as soon as they begin to quarrel with, or bite other dogs.

"The eyes of mad dogs do not look red or fierce, but dull; and have a particular appearance, which is easily distinguished by such as have been used to observe it; but not easily to be described.

"Mad dogs never bark, but occasionally utter a most dismal and plaintive howl, expressive of extreme distress; and which, those who have once heard can never forget. So that dogs may be known to be going mad without being seen, when only this dismal howl is heard.

"Mad dogs do not foam or froth at the mouth, but their lips and tongue appear dry and foul, or slimy.

"Though mad dogs generally refuse both food and drink in the latter stage of the disorder, yet they never show any abhorrence or dread of water, will pass through it without difficulty, and lap it eagerly to the last. But it is remarkable that though they lap water for a long time, and eagerly, and do not seem to experience any uneasiness from it, yet they do not appear to swallow a single drop of it; for, however long they may continue lapping it, no diminution of quantity can be perceived.

"I am persuaded, that this disorder never originates from hot weather, provisions, or from any other cause but the bite. For however dogs may have been confined, however fed, or whatever may have been the heat of the season, I never knew the disorder commence without being able to trace it to that cause; and it was never introduced into the kennel, but by the bite of a mad dog.

"The hairs of a mad dog do not stand erect more than those of other dogs. I do not know that there is any thing remarkable

in the manner of his head, or his tail. Dogs are more afraid of the bite of the same dog than of any other. There are two kinds of which I have known the bite of the same dog, one is known by the other by the manner of the bite. In dumb mad dogs and is fixed, the mouth, and the dog snaps at the drops from it.

of which I have known to originate from
the bite of the same dog. Among the
huntsmen, one is known by the name of
Rigging, the other by that of Dumb Mad-
nes. In dumb madnes, the nether jaw
drops and is fixed, the tongue hangs out of
the mouth, and flaver drops from it. In
raging madnes, the mouth is shut, except
when the dog snaps or howls, and no mois-
ture drops from it.

SALEM, November 14.
Arrived the sch'r Joan, Capt. Henry
Saunders, 40 days from Lisbon. Spoke
nothing. Left Sunday night, lat. 42,
33, long. 65, 40, fell in with the ship
Bellona, of New York, with no person
on board, laid by her all night, and next
morning on boarding her found she was
laden with a valuable cargo of wine,
thought best to man her with what hands
he could spare, accordingly sent the mate
and two men on board, with provisions,
&c. and ordered her for the first port they
could make. [The crew of the Bello-
na were taken from the wreck by captain
Swinson, of the sch'r. Lydia, and arrived
at Boston on Tuesday last.]

NEW YORK, November 22.
The letter from which the following is
an extract was communicated to us by a
gentleman passenger in the ship Superior
from New-Orleans who received it from a
person of the first respectability there after
the vessel had left port, and whilst she was
waiting for a wind in the outer harbour.

NEW ORLEANS, October 20th, 1802.
At 8 o'clock this evening I left the
office of the Intendant, who informed me
that Peace had just been proclaimed;
and that the neutral Commerce granted
to the Americans, in consequence of the
regulations of the 16th June, 1798, and
the 18th October, 1799, had ceased, by
virtue of the fourth article of the treaty
the 27th October, 1795. They will not
in future be permitted to make a deposit
of their cargoes in this place, conformably
to the 22d article, which has expired."

Capt. Abrams, from Port Republican,
informs us that the French military out-
posts there had been ordered to retire
within the city. The negroes were in a
state of general insurrection.

The following extract of a letter from
a gentleman at Cape Francois, dated the
29th of September, describes the present
critical state of that country.

"The French troops which have been
sent here, have been so much fatigued and
harassed, that this and the prevailing sick-
ness, and what have fallen by the Brigands
have destroyed at least two thirds of them
—at least 500 Americans have died of the
prevailing fever, and are still dying dai-
ly. Fresh troops have been for some time
hourly expected; news was received two
days ago, that the troops destined for this
island had revolted in France, and refused
to march. What will be the consequence
there, I cannot tell; but here it occasions
great consternation. The news having
reached the negroes, they are become more
bold. They are fighting daily, & burn-
ing property in view of this place, at the
distance of from two to twenty miles—
They are well supplied with ammunition
and provisions. The issue of battles is
seldom spoken of openly.

Last Sunday week, we heard, on
board our vessel, a firing of platoons, more
regular than I ever heard before, which
continued more than two hours. The is-
sue is unknown. Some out-posts that
were occupied by black troops, have been
replaced by sailors from shipping. Gene-
ral Christophe is yet in command. He
has received a check or two; he is sus-
pected and narrowly watched. Desfilines
strikes terror wherever he goes.

"Notwithstanding this critical situation
of things, a great deal of business is done.
More than 200 sail of vessels now in port, &
others are constantly coming in & going out.
The re-building of the town goes on with
great rapidity; sufficient workmen cannot
be got. The government yesterday raised
a contribution from the inhabitants of
more than a million of livres: some mer-
chants were taxed as high as 900 dollars,
and others in proportion—American pro-
duce is in general plentiful, and very low.
The abuse against the General in Chief,
which circulates in the American papers,
with the grudge owing, on account of the

conduct of the late administration, has
considerably exasperated the French go-
vernment against us, and here it is not ve-
ry much in favor of a man to be an Ame-
rican."

Arrived since our last
Brig Eliza Ann, Bush, in 18 days
from Philadelphia. During the passage,
Capt. B. Experienced 3 severe gales of
wind, his vessel sprung a leak, and had 5
feet water in the hold, which obliged
capt. B. to throw his deck load over-
board, consisting of molasses.

Sloop Paragon, Dickinson, in 12 days
from Bermuda. Left there, sloop John,
just arrived in 20 days from this port.
Nov. 13, experienced a very severe gale
of wind which shattered our sails and rig-
ging very badly. Nov. 14, off the
Capes of Virginia, spoke ship Mary, of
Boston, out 20 hours from Baltimore
bound to Lisbon.

Ship Superior, Sinclair, of Philadel-
phia, in 36 days from New Orleans, and 24
days from the Bellis. Sailed, on the 20th
ult. in company with the following ves-
sels: ship Louisa, Wilson, of Philadelphia
for Havre de Grace; ship Atlantic, Pen-
rose, for Bordeaux; brig Charlotte, Dia-
mond, for Baltimore; sch'r George, —
for Baltimore; brig Fame, Goffburgh, for
Philadelphia. Left there a number of
vessels, names not recollected. Several
had been fold to the Spaniards. In lat.
36, 14, long. 74, 40, spoke the Danish
sch'r. John, from this port, out 28 days;
who after being out 3 days carried away
both masts; the captain reported he was
bound to Norfolk. [The above schooner
failed from this port some time since, and
the pilot boat Fair Play has been in pur-
suit of her ever since.]

Brig New Haven, Bernham, 40 days
from Trinidad. Left there brig Lovi-
na, Walking, of New Port, (R. I.) and
ship Vigilant, captain Archer, of and for
New Port, and ship —, captain
Stone, for do. Sailed in company with
the schooner Sea Flower, bound to Phila-
delphia. November 16th, in lat. 36,
54, long. 63, 30, spoke sloop Sufannah,
out 38 days from St. Martins, bound to
Boston under a jury mast, and short of
provisions; supplied him with a quantity
of bread.

Schr. Mercator, 21 days from Bal-
timore. From the 4th to the 7th inst.
experienced very severe gales of wind
from the N. N. E. On the 6th shipped a
heavy sea, which stove the boat on deck
to pieces, and split several of the sails.—
Same day saw a small black sloop to lee-
ward, about two miles distance; but the
weather getting thick and foggy, soon
lost sight of her. In about two hours
the weather cleared, but could not see
nothing of the sloop, and concluded she must
have gone down, for at that time the
Mercator could not be more than a mile off.
7th shipped several seas, and stove in a
hoghead of water on deck. 9th, saw be-
tween 3 and 400 barrels a float, several
pieces of boxes, and a small boat bottom
upwards: the sea being rough, and the
wind blowing fresh, could not pick up any
of them. Captain Hopkins, formerly mas-
ter of the ship Grand Turk (who with his
wife came passenger in the Mercator) sup-
poses the barrels and the other floating ar-
ticles were from the brig —, Gil-
man, which failed for the West Indies
from Baltimore, with flour a few days be-
fore, and was deeply laden; the side lea-
ther and many other articles being similar
to those on board the brig.

Schr. Jefferson, Bateman, 15 days from
New-bern N. C. On the passage ship-
ped a heavy sea, lost part of her quarter-
boards and did other damage, lying to at
the same.

Schooner Jane, Horton, 32 days from

Fredericksburgh, Vir. 22 from the Capes.
In lat. 35, 16, spoke brig Star, bound
from Philadelphia to Boston, out 10
days. Lat. 37, 3, spoke a sch'r out 15
days from Philadelphia, bound to New-
York; the captain of which informed that
he was in the Gulf Stream when a se-
vere gale came on from the N. N. W.
accompanied by heavy rain, and that he
had split some of his sails. On the 1st
inst. experienced a severe gale from the
S. W. which subsided without damage.
5th had several very severe gales, with
heavy seas, one of which washed off the
caboote, the boat and the flying jib, and
split the fore sail to pieces. On the 7th
the storm abated, but the sea continued
rough, and the vessel for the safety of the
crew bore away N. N. E. saw after-
wards several pieces of wrecks afloat.

Schr. Northampton, Gamewell, from
Edenton, N. C. Nov. 13, in a gale of
wind sprung a leak, which obliged us to
keep our pumps almost constantly going.
19th, about 40 miles south of Sandy Hook
saw a schooner and a sloop on shore ap-
parently high on the beach; the sch'r ap-
peared to have yellow sides and white bot-
tom; did not learn either of their names;
supposed them to be northern vessels.

The sloop Fancy, Baker, from Edenton
N. C. The sch'r Polly and Sally, Cooper,
for this port, failed at the same time.

Schr. Lion, Clark, St. Thomas. Left
there, brig Venus, Crocker, failed the
same day for the West End, to take in a
cargo for this port; brig Gorham, M.
Donald, for Portland; sch'r. Industry,
Walker, for Boston. Nov. 19th, spoke
sloop Columbia, M'Neal, from the coast
of Africa, bound to R. Island. Nov. 18th
spoke sch'r Fanny and Catherine, from St.
Thomas, for this port; having lost her
main sail. Markets at St. Thomas very
dull flour was selling at 10 dollars.

At Quarantine.
Brig Hannah, Abrams, 30 days from
Port Republican. Nov. 5th, spoke the
ship Atlantic, Doty, out 30 days from
Cape Francois, for this port. Left at P.
Republican a number of American vessels,
names not recollected. Colonial produce
scarce and high; American produce low
and in plenty.

was contained in a letter received at
Philadelphia, from the latter, dated
October 6.

[COPY.]
GIBRALTAR, Sept. 6, 1802.
JOSEPH IZNARDI, Esq.
SIR,
I have now to inform you, that four
days ago, arrived here from Tetuan, 36
Morish seamen, for the Tripolitan ship
laid up here; among them is the com-
mander of the Tripolitan brig fold here.
They this day began to work on her.—
The report is, that she is the Emperor of
Morocco's property, going from hence to
Tetuan for provisions, and from thence to
Tripoli. Please to communicate this to
the commanders of the United States' ships
of war, and all others concerned. I am,
sir, your's, &c.

JOHN GAVINO.

P. S. A Morocco ship from Larash has
been out some days.

A letter from Surinam, of the 1st of
October say, "The British has still posses-
sion of this colony." And adds, "Capt.
Prince, of Boston died here in July last,
and that Mr. Tuffis, the American Consul
is still sick, and not able to get out of his
bed,"—by which we have reason to hope
the report of his death circulated some
time since, is unfounded.

A letter from a gentleman in Gibrat-
ar, dated the 6th of October last, men-
tions that there were five ships of the line in
that place; all of which had on the 5th of
Oct. taken in 5 months provision and stores
of all kinds, and were ordered to sea imme-
diately. It was said that they were going
up the Mediterranean. It was so sudden a
business, that the best informed people there

were not able to tell the particulars or their
destination. He adds, that it was evident
some mischief was brewing, as on Thurs-
day evening, the 2d of October, a brig of
war passed that place from Malta, she sent
a boat with letters to the commandant of
the fleet; after which the Admiral pro-
ceeded to take in the above mentioned
stores; and concludes his letter by saying,
that every body there talk of nothing but
WAR. [Phil. paper.]

Capt. Allen, from Madeira, arrived at
New York, informs, that in the beginning
of September, a Portuguese ship of 44
guns, of the burthen of 1000 tons, with
200,000 dollars, and a cargo valued at
90,000l. sterling, was blown up in the
harbour of Madeira. All the crew perish-
ed except the boatswain and a boy, who
were badly hurt. She belonged to John
Crook, of Lisbon.

SELFISHNESS
The attention, which the generality of
mankind pay to self, perhaps is never so
collectively discovered as at a theatre.
Every joke on a courtier's not paying his
debts, is sure to receive a thundering ap-
plause from the pit and the galleries, while
this debt is regularly repaid by the boxes
on the first facetious allusion to horns or
any other symbol of cuckoldom.

Valuable Medicines,
Which are in high esteem and general use

Dr. HAMILTON'S ELIXIR,
A sovereign remedy for Colds, Obsolete Coughs,
Asthmas, Catarrhs, Sore Throats, and Ap-
proaching Consumptions.
To parents who may have children afflicted
with the **HOOPING COUGH.**
This discovery is of the first magnitude, as it
is an immediate relief, checks the progress, and
in a short time entirely removes the most cruel
disorder to which children are liable—the Elixir
is perfectly agreeable and the dose so small,
that no difficulty arises in taking it.

From **LUTHER MARTIN, Esq. Attor-
ney-General of the State of Maryland.**
Gentlemen,

I comply with your request in stating my
opinion of Hamilton's Elixir. It has been used
in my family for two or three years past, with
uniform success, whenever colds, coughs, or si-
milar complaints have rendered medicine ne-
cessary. I have myself found it an excellent and
agreeable remedy for a very painful and trou-
blesome affection of the breast, accompanied
with soreness and with obstructed and difficult
breathing.

On these accounts I do not hesitate to recom-
mend Hamilton's Elixir, as a valuable medicine,
and deserving public attention.

LUTHER MARTIN.
Mr. Abijah Henly, Bridge-Street, Baltimore,
was cured by one bottle of Hamilton's elixir of a
very complicated disorder, occasioned by a fe-
ver cold caught several months ago. He
breathed with the greatest difficulty, and was
often thrown into weakening sweats when he
attempted to walk any distance, and his voice
would frequently fail in such a degree that he
could only attempt to whisper; he has been
upwards of six weeks without a return of his
complaints, and desires to give this public tes-
timony in favour of this invaluable medicine.

**Dr. Hamilton's
GRAND RESTORATIVE,**

Is recommended as an invaluable medicine, for
the speedy relief and permanent cure of the vari-
ous complaints which result from dissipated plea-
sures—juvenile indiscretions—residence in cli-
mates unfavourable to the constitution—he im-
moderate use of tea, frequent intoxication, or any
other destructive intemperance—the unskillful or
excessive use of mercury—the diseases peculiar to
females, at a certain period of life—bad lyings
in, &c. &c.

And is proved by long and extensive experience
to be absolutely unparalleled in the cure of
Nervous disorders, Violent cramps in the
Stomach and back,
Indigestion,
Lowness of spirits, Melancholy,
Gout in the stomach,
Pains in the limbs,
Relaxations, Involuntary emissions,
Obtinate gleets,
Impotency, &c. &c.
In cases of extremity, where the long preva-
lence and obduracy of disease has brought on a
general impoverishment of the system, excessive
debility of the whole frame, and a wasting of the
flesh, which no nourishment or cordial could re-
pair a perseverance in the use of this medicine
has performed the most astonishing cures.

**HAMILTON'S ESSENCE and EX-
TRACT OF MUSTARD,**

A safe and effectual remedy for gout, rheuma-
tism, palsy, sprains, bruises, pains in the face
and neck, &c. And has performed more cures
in the above complaints than all the other medi-
cines ever before made public.

From **Dr. Weatherburn,**
Wyth county, Virginia.

Gentlemen,
I purchased at your shop the preparations you
call Hamilton's Essence, or Extract of Mustard,
which I believe has perfectly removed a chronic
rheumatism (of that kind named sciatica, or of
the hip joint) under which I had laboured for a
long time, and which had baffled every article
in the Materia Medica, and every mode of treat-
ment received into practice for the cure of this
obstinate disease. If you think this letter useful
you are at liberty to make it public.
Yours, &c.

P. WEATHERBURN.
John Hoover, rape-maker, South Second-
Street, between Mary and Christian-Streets,
Philadelphia, voluntarily maketh oath as fol-
lows, namely, that his wife, Mary Hoover, was
so severely afflicted with a violent rheumatism,
very dangerously situated, the consequence of a
severe cold after lying in, as to be confined to her
bed for seven weeks, and was at length re-
duced to the melancholy apprehension of re-
maining a cripple for life, notwithstanding the
most respectable medical advice was followed,
and every probable remedy attempted: when
feeling several cases of cures performed by Ha-
milton's Essence and Extract of Mustard, they
were procured from Mr. Birch, No. 17, South
Second-Street. The first application enabled her
to walk across the room, and the use of one
bottle restored her to her usual state of health
and strength.

**HAMILTON'S
WORM DESTROYING LOZENGES.**
Which have within four years past cured up-
wards of one hundred and twenty thousand
persons of both sexes, of every age, and in every
situation, of various dangerous complaints aris-
ing from worms, and form obstructions or foul-
ness in the stomach and bowels.

This medicine bears no analogy whatever of
similar title, so commonly complained of as op-
erating with violence; on the contrary, a parti-
cular excellence of this remedy is its being suit-
ed to every age and constitution; contains no-
thing but what is perfectly innocent, and is so
mild in its operation that it cannot injure the
most delicate pregnant lady, or the tenderest in-
fant of a week old, should no worms exist in
the body; but will, without pain or griping,
cleanse the stomach and bowels of whatever is
foul or offensive, and thereby prevent the pro-
duction of worms and many fatal disorders.
They are particularly efficacious in carrying off
all gross humours and eruptions; feverish and
bilious complaints, and are the safest and mild-
est purgative that can be used on any occasion.
**Description of Worms, and the symptoms
by which they are known.**

Worms which infect the human body, are chief-
ly of four kinds, viz. the Teres or large round
worm, the Ascarides, or small maw worm, the
Cucurbitina, or short, flat, white worm, and
lastly, the Tænia, or tape worm, so called from
its resemblance to tape; this is often many yards
long, and is full of joints—it is most hurtful, and
most difficult to cure.

Among the symptoms attending worms, are
disagreeable breath, especially in the morning—
Bad and corrupted gums—itching in the nose
and about the seat—Convulsions and epileptic
fits, and sometimes privation of speech—Starting
and grinding of the teeth in sleep—Irregular ap-
petite, sometimes loathing food, and sometimes
voracious—Purgings, with slimy and ferid stools
—Vomiting—Large and hard belly—Pains and
sickness at the stomach—Pains in the head and
thighs, with lowness of spirits—Slow fever, with
small and irregular pulse—A dry cough—Exces-
sive thirst—Sometimes pale and unhealthy coun-
tenance, and sometimes the face bloated and
flushed.

Persons afflicted with any of the above symp-
toms, should have immediate recourse to **HAM-
ILTON'S WORM DESTROYING LO-
ZENGES**, which have been constantly attend-
ed with success in all complaints similar to those
above described.

A dose of this medicine given occasionally
during the warm season, will effectually pre-
vent the vomiting and purging of children, a
dreadful disorder which annually destroys thou-
sands of the infant part of our cities. It is like-
wise the mildest and most certain remedy known
and has restored to health and strength a great
number when in an advanced stage of this fatal
complaint. Particular and plain instructions are
given for every part of the necessary treatment
in such cases.

Children generally take this medicine with
eagerness; having a pleasing appearance, and
an agreeable taste.

TAPE WORM.

Mr. SAMUEL FULLER, Inn-keeper, on
the Harford road, ten miles from Baltimore,
began about 20 months ago to be grievously af-
flicted with a tape worm, which increased fast
in size and strength, so as to excite the most
horrid sensations by its writhing motions and
intolerable pains, resembling the gnawing and
tearing of his bowels, which deprived him of
his necessary sleep, and caused such dreadful ap-
prehensions as cannot be conceived but by one in
a similar situation—his appetite wasted rapidly,
and with that his strength, so that he was un-
able to attend to any business—when he heard
of some excellent cures performed by Hamil-
ton's worm lozenges, he took a large dose, which
brought away about **FOUR YARDS** of the
worm (now in the possession of Lee & Co.)—
but a renewal of his pains soon convinced him
that this monstrous reptile had recovered its first
vigour—Application was made to Lee & Co.
for more of their medicine, with their advice—
from which resulted the total expulsion of his
formidable enemy, in several pieces, which he
supposed to be **SIX or EIGHT YARDS** more.
A few months have since elapsed, and Mr. Full-
er is now in perfect health. The above facts
are well known to a numerous circle of his neigh-
bours, and himself will gratify any who may
wish to make further inquiries on the subject.
Although Hamilton's worm lozenges produce
such powerful effects, when necessary, yet they
are perfectly innocent and mild in their opera-
tion on the human body, even taken in large
doses, as Mr. Fuller will testify—their particu-
lar mildness is abundantly evident in innumera-
ble cures of infants.

Communicated by **Dr. John Spangler,**
York-town, Pennsylvania.

Letter from the reverend Mr. JOHN MOL-
THER, minister of the Moravian church, in
York-town

York, January 4th, 1802.

Dear Sir,
Dr. Hamilton's lozenges have been recom-
mended to me as a very adequate means for the
cure of children afflicted with worms. I procur-
ed a box for the use of my family, to try, whe-
ther by means of this medicine, I might be en-
abled to gain a point, which, to accomplish, dif-
ferent other means had proved abortive. My
eldest boy had a very sickly appearance, was very
restless at night, grew leaner from time to time;
in short, he seemed to be in a precarious state of
health, which would yield to none of the medi-
cines administered, until I gave him two doses
of lozenges agreeably to the directions, which
carried off a substance to all appearance a mere-
mus, but upon close inspection quite reple
with very small living animals. Not one of the

fort of worms which usually infect children
came from him. Since that period he grew re-
markably better in health, and though lean,
has got a fresh and lively complexion. Upon
different occasions I have used this medicine a
purgative substitute, and found it to answer exceed-
ingly well, without bringing on belly-ache, or
any of those disagreeable sensations, so often oc-
casioned by purging medicines. Upon the whole,
I judge this medicine to be, besides its main ob-
ject, one of the most salutary means for restor-
ing lost appetite, and promoting a proper state
of digestion, by carrying off that bilious sub-
stance, which engenders so much indisposition
both among children and adults.

I am, Sir, your most obedient servant,
JOHN MOLTHER.

**Dr. HAHN'S TRUE and GENUINE GER-
MAN CORN PLAISTER.**

An infallible remedy for corns, speedily remov-
ing them, root and branch, without giving pain.

The GENUINE PERSIAN LOTION,
So celebrated among the fashionable through-
out Europe, as an invaluable cosmetic, perfectly
innocent and safe, free from corrosive and repel-
lent minerals (the basis of other lotions) and of
unparalleled efficacy in preventing and remov-
ing blemishes in the face and skin of every kind, par-
ticularly freckles, pimples, inflammatory redness,
scurs, tetter, ring worms, sun burns, prickly
heat, &c.

The Persian Lotion operates mildly, without
impeding that natural, insensible perspiration
which is essential to health. Yet its salutary ef-
fects are speedy and permanent, rendering the
skin delicately soft and clear, improving the com-
plexion, and restoring the bloom of youth. Ne-
ver failing to render an ordinary countenance
beautiful, and an handsome one more so.

**The RESTORATIVE POWDER for the
TEETH and GUMS.**

This excellent preparation comforts and
strengthens the gums, preserves the enamel from
decay, and cleanses and whitens the teeth, by
absorbing all that acrimonious slime & foulness,
which festered to accumulate, never fails to in-
jure and finally ruin them.

Dr. HAHN'S GENUINE EYE-WATER.

A sovereign remedy for all diseases of the eye,
whether the effect of natural weakness or of ac-
cident, dislocations of rheum, dullness, itching
and films on the eyes, never failing to cure those
maladies which frequently succeed the small pox,
measles and fevers, and wonderfully strengthen-
ing a weak sight. Hundreds have experienced its
excellent virtues, when nearly deprived of sight.

TOOTH ACHE DROPS.
The only remedy yet discovered which gives
immediate and lasting relief in the most severe
instances.

**The SOVEREIGN OINTMENT for the
ITCH.**

Which is warranted an infallible remedy at
one application, and may be used with perfect
safety by pregnant women, or on infants a week
old, not containing a particle of mercury, or any
other dangerous ingredient whatever, and is not
accompanied with that tormenting smart which
attends the application of other remedies.

THE ANODYNE ELIXIR.
For the cure of every kind of head-ache.

INDIAN VEGETABLE SPECIFIC.
A safe and speedy remedy for the venereal dis-
ease.

"An ounce of prevention is worth a pound of
cure."

For the prevention and cure of bilious and ma-
lignant fevers,

**IS RECOMMENDED
Dr. HAHN'S ANTI-BILLIOUS PILLS.**

The operation of these pills is perfectly mild, so
as to be used with safety by persons in every sit-
uation, and of every age.
They are excellently adapted to carry off super-
fluous bile, and prevent its morbid secretions—to
restore and amend the appetite—to procure a free
perspiration, and thereby prevent colds, which
are often attended with fatal consequences—a
dose never fails to remove a cold, if taken on its
first appearance. They are celebrated for re-
moving habitual costiveness—sickness at the stom-
ach, and severe head-ache—and ought to be
taken by all persons on a change of climate.

Sold likewise by S. Plea-
sants, Richmond; Rofs and Dou-
